Re: Simvastatin in aneurysmal subarachnoid haemorrhage (STASH) – a multicentre randomised controlled clinical phase III study.

Dear Dr

I wish to contact the person named below, who was last known to be registered at your practice. Your patient kindly took part in the STASH trial in collaboration with the Department of Neurosurgery at Addenbrooke's Hospital, Cambridge.

As the final part of the study we wish to contact your patient and ask if they and/or their partner would complete two short outcome questionnaires.

I would be grateful if you could let me know within 2 weeks of the date of this letter if there is any reason why they should not be contacted. If the address and/or telephone details are incorrect or are incomplete I would be grateful if you could let me know.

Name:
Address:
Dob:
Tel :

Many thanks for your help.

Kind regards
Yours sincerely

on behalf of the STASH trial
